## **I'll Make Carson City the Best Place**

**"Every good citizen adds to the strength of a nation."** That quote was made by Gordon B. Hinckley. We could all try to be good citizens and we'll make this nation a better place for us and future generations. I'd like this city to become a cleaner and better environment. I'm going to be kind, pick up trash, and be generous. Even if I'm just a kid I could still help make Carson City a better and cleaner environment. Now I'll show you how I'm going to be kind, pick up trash, and be generous.

I'm going to try to make this place better for everyone by being generous. One way I'm going to be generous is by donating my change to homeless people or other people who need it. Help people carry their stuff if they have too much and can't carry it all. Another thing I could do is smile at someone because even a small thing could make a big and great difference. I'm going to help anyone if they are in need of help, an example would be if a disabled person needs help with picking up something I could help them. That's how I'm going to be generous.

I will make Carson City better for everyone by picking up trash or recycling trash and composting your stuff too. Most of the time you see people picking up trash and people getting a job to clean up trash like a garbage man/woman. Even if you don't have a job still you could pick up trash if you see trash then put it in the trash or recycling bin if you can. If you see plastic or paper recycle it so we can reuse it so there's not a lot of trash. Also one more thing is if you have a farm you can get a composter because you could put your trash except plastic and paper in the composter, the decomposers can turn it into fertilizer for your plants.

One last final thing you could do is being kind. A way you could be kind is if you see someone sitting alone or if you're walking and going the same way you are you could say hi to them and talk with them because I bet it would make their day a little better. You could also hold the door for someone if they're going into or out of the building so you don't just slam it in their face. And if you're walking past someone or saying goodbye once you're leaving, saying have a great day or have a wonderful day, if you say that it will probably make them have a great or wonderful day.

I believe that if we all be good citizens we could make this city the cleanest and best in the state. Those are my ways of making Carson City a better and bigger place. I could go on and on about how to help make Carson City a better place. I feel like these are my top three things I would do in Carson City to make it a better place. If I could I would tell everybody these three things so we can make this city a better place.
