TEAM TEACHING

In determining the composition of teaching teams, the principal will attempt to seek input from the potential team members in order to insure the compatibility of the teaching teams. After receiving all input, the principal will determine the final composition of the individual teaching teams pursuant to the criteria contained in the negotiated transfer policy.

When conflicts arise between team members, there will be two levels of resolution.

1. Team members are encouraged to resolve any conflicts by meeting together or they may select a mediator from a District team teaching resource pool to assist them.
2. If the conflict is not resolved by the teaching team at this first informal mediation stage, the dispute will be mediated by the site principal. The principal will have the power to bind the parties with their written recommendation. If the parties fail to comply, disciplinary action may be taken pursuant to NRS 391.
