EXTRA DUTY

Teachers are expected to participate, by assistance or attendance, in as many school functions as possible, including special events of the Dramatics Department, Music Department, Athletic Department, and other functions in which students take part. Their interest in these events indicates their interest in the students who are participating.

When teachers are assigned supplemental duties, the performance of such duties is considered an obligation and must be completed in a satisfactory manner.

The Superintendent shall develop regulations for the assignment, supervision, and termination of supplemental duties.
