**POLICY No. 706

USE OF SCHOOL FACILITIES

The Board of School Trustees may make District buildings or grounds available for use for public, literary, scientific, recreational, or educational meetings or for the discussion of matters of general or public interest in accordance with the provisions of Nevada Revised Statutes.

The use of District facilities is subject to and conditional upon compliance with the Rules and Regulations adopted by the Board for use of school facilities.

Applications for the use of school facilities should be presented in writing to the appropriate site administrator at least two weeks before the planned date of any such use, except that no use may be granted for a period exceeding one year. The Board, at its sole discretion, reserves the right to cancel the planned use of a school facility by a community organization when such use conflicts with a school activity.

Any denial of the right to use a school facility by a site administrator may be appealed to the Board, whose decision shall be final.

A fee shall be charged for the use of school facilities, which shall be sufficient in amount to defray the costs created, by increased use of heat, light, maintenance and other related services.

A designated School District representative must be on duty during the time a school facility is used by a community organization.

No organization or individual will be granted the use of school facilities for commercial use or personal gain or profit. Political meetings, which are open to the public, are considered to be programs of public education.

Permission for the sale of, or consumption of, alcoholic beverages will **NOT** be granted to any individual, group or organization for any activity or function on school property.
